## Professional Collections

Software to produce personalised exercise and information handouts

PhysioTools Professional Collections are a cost effective way to purchase a pre-selected range of modules with occupation or interest specific content.

Professional Collections have been designed to meet the needs of specific groups of users. Each collection contains modules we have selected to provide you with exercises suitable for your area of interest.

### Features

Technical support and updates to the software are provided at no extra charge. Additional copies of each collection are also available at a 30% discount.

### Options

Professional Collections can be used with individual modules or combined with other Professional Collections for you to create professional exercise and information handouts. You can install your Professional Collection on a standalone computer or as a network version - please ask for further details.

Professional Collection	Number of Modules	Number of Exercises	Percentage Discount
Physiotherapy	15	3,300+	70%
Sports & Fitness	13	3,600+	68%
Chiropractic	16	3,800+	64%
Occupational Therapy	9	2,700+	61%
Manual Therapy	6	990+	51%
Paediatric	5	860+	47%
Osteopathy	16	3,800+	64%

### Price

Professional Collections are an extremely affordable way to purchase PhysioTools software. You can save up to 70% on purchasing the same modules individually. Please see reverse for prices and a complete list of modules included in each of the Professional Collections.

**PhysioTools Ltd** has been designing, perfecting and supporting exercise software since 1987. Visit [www.physiotools.com](http://www.physiotools.com) for detailed descriptions of the individual modules, including author profiles.
